Professional Summary

Full-Stack Developer with **5+ years of experience** building automations, scalable web, mobile, and cloud solutions. Skilled in **Node.js, PHP, TypeScript, React, Python, and SQL/NoSQL databases**, with strong expertise in **AWS, GCP, and serverless architectures**. Proven track record of **optimizing systems for cost, scalability, and performance**, while collaborating cross-functionally to deliver innovative products. Seeking to leverage both **technical expertise and business acumen** to drive growth in forward-thinking companies.

Core Competencies

- **Languages & Frameworks:** Node.js, PHP, JavaScript, TypeScript, Python, Java, React, React Native, NestJS, NextJS, Tailwind CSS, HTML, CSS, VBA
 - **Cloud Platforms:** AWS (Lambda, EC2, ELB, API Gateway, CloudWatch, SQS, S3, IAM, Certificate Manager), GCP (Cloud Functions, Pub/Sub), Cloudflare, Vercel
 - **Databases:** MySQL, MongoDB
 - **Messaging & Streaming:** Apache Kafka, AWS SQS, Google Pub/Sub
 - **DevOps & Tools:** Git, Bitbucket Pipelines, Docker, CI/CD, Microservices Architecture
-

Professional Experience

LIA Flow – Intelligent Automations | Founder & Automation Specialist

Jun 2025 – Present | São Paulo, Brazil

- **Led the entire creation process of LIA Flow**, including branding, value proposition, target audience, service portfolio, pricing, and business model definition.
- **Developed the complete business plan**, structuring the SaaS + consulting offering and defining commercial, operational, and post-sales processes.
- Designed and built advanced automation workflows using n8n, integrating WhatsApp Business API, Google Workspace, CRMs, and databases.

- **Created custom AI agents (LLMs)** for customer support, scheduling, FAQs, surveys, and multichannel conversational automation.
- **Built audio-processing pipelines** with ElevenLabs, Whisper, and media handling tools, including fallback strategies, transcription, and conversion.
- **Implemented data persistence** using Supabase (Postgres), including schemas for conversations, context management, logs, and audit trails.
- **Tested and validated the entire architecture** in real-world scenarios, building staging environments, monitoring systems, and failure-tolerance mechanisms.
- **Worked directly with clients** to map processes, design tailored automation solutions, and drive continuous optimization.
- **Deployed virtual phone numbers with WhatsApp** Business, integrating WABA, templates, media workflows, and error-handling routines.
- **Structured a complete service portfolio** and institutional website, including copywriting, UX, and commercial presentation.
- **Created dashboards and internal processes** to monitor performance, delivery progress, and project evolution.

INNGAGE – Engagement Solutions | *Specialist Developer*

Feb 2021 – May 2025 | São Paulo, Brazil

- **Refactored** the core platform into a multi-tenant, multichannel architecture, expanding service offerings and increasing scalability.
- **Implemented** serverless solutions (AWS Lambda & GCP Functions) and **optimized** queue processing with AWS SQS and Pub/Sub, reducing processing latency.
- **Deployed** Apache Kafka streaming and restructured MongoDB schemas to support high-volume, real-time data processing.
- **Developed** new APIs and features in PHP and Node.js using microservices, improving feature delivery cycle.
- **Designed and managed** cloud architecture with a focus on cost reduction and performance optimization, cutting infrastructure costs by **15%**.
- **Mentored** junior developers, reviewed pull requests, and established coding best practices.
- **Collaborated** with cross-functional teams to ensure alignment of technical solutions with client needs.

Almavet Veterinary Clinic | *Co-Founder & Administrative/Financial Director*

Jan 2014 – Dec 2019 | São Paulo, Brazil

- **Founded and managed** all business operations, from finance to IT systems.
 - **Implemented** administrative and customer service systems that reduced client response time by 25%.
 - **Developed** marketing plans that expanded the client base.
 - **Directed** financial management (cash flow, payables/receivables, contracts), ensuring sustained profitability.
 - **Supervised** staff recruitment, training, and HR policies.
-

B3 – Brasil Bolsa Balcão (formerly BM&FBovespa) | Treasury Analyst
Jan 2012 – Oct 2013 | São Paulo, Brazil

- **Conducted** hedge accounting and feasibility studies for cash flow management.
 - **Developed** the MRA SAP module, improving treasury reporting efficiency.
 - **Managed** liabilities, structured financing proposals, and share buyback programs.
 - **Performed** liquidity tests and controlled portfolio duration aligned with investment policies.
-

Fleury S.A. | Treasury Analyst
Jun 2010 – Nov 2011 | São Paulo, Brazil

- **Led** volatility analysis and derivative hedging strategies.
 - **Served** as SAP Key User (TRM and FI modules).
 - **Managed** debt planning, foreign currency payments, and financial risk controls.
 - **Prepared** treasury indicators and updated regulatory financial notes.
-

Honda – Moto Honda da Amazônia | Compensation Analyst
Apr 2008 – Oct 2009 | São Paulo, Brazil

- **Developed and analyzed** compensation studies, climate surveys, and performance assessments.
 - **Prepared** management and audit reports to support executive decisions.
 - **Benchmarked** market practices to align compensation strategy with industry trends.
-

Education

- **Postgraduate – Full-Stack Programming & Development in Efficient Languages | FIA – Expected Dec 2025**

- **Postgraduate – Master in Financial Economics** | Fundação Getulio Vargas (FGV) – *Jun 2013*
 - **Bachelor – Business Administration** | Universidade Presbiteriana Mackenzie – *Jun 2006*
-

Languages

- Portuguese – Native
 - English – Advanced (speaking, reading, writing)
 - Spanish – Intermediate (speaking, reading, writing)
-

Additional Experience & Courses

- **International Experience:** Sydney, Australia – Business Administration Supplementary Course (12 months)
 - **Courses:** Front-End Developer (Gama Experience #XP40), Advanced VBA for Excel, Advanced Access, Bloomberg Currency Module, Marketing for Clinics
-
